

Appointment Scheduling Policy

Synthetic healthcare policy document for RAG testing

Document Notice

This file is synthetic and created only for healthcare AI assistant RAG testing. It does not contain real patient data, PHI, confidential client data, or actual medical advice.

1. Purpose

This policy explains appointment booking, cancellation, rescheduling, department selection, referral handling, and basic scheduling expectations for patients and staff.

2. Booking Methods

Patients may book appointments online, by phone, through approved patient portals, or at the reception desk. Staff should confirm patient identity and contact information before finalizing an appointment.

- Patients may book appointments online, by phone, through approved patient portals, or at the reception desk.
- Staff should confirm patient identity and contact information before finalizing an appointment.

3. Supported Departments

Appointments may be scheduled for general medicine, cardiology, dermatology, pediatrics, orthopedics, gynecology, and other available departments depending on provider availability.

4. Specialist Referrals

Some specialist appointments may require a referral or previous clinical note. If a referral is required but missing, the patient should be informed and guided to complete the required step.

- Some specialist appointments may require a referral or previous clinical note.
- If a referral is required but missing, the patient should be informed and guided to complete the required step.

5. Arrival and Check-In

Patients should arrive at least 15 minutes before the scheduled appointment time. Late arrivals may be rescheduled if the delay affects clinical workflow.

6. Cancellation and Rescheduling

Patients should inform the hospital at least 24 hours before cancellation or rescheduling. Missed appointments may be marked as no-show based on internal rules.

- Patients should inform the hospital at least 24 hours before cancellation or rescheduling.
- Missed appointments may be marked as no-show based on internal rules.

7. Mock Appointment Tool

For demo systems, appointment availability may be simulated using a mock tool. The mock tool should clearly state that results are for demonstration only and are not real bookings.

8. Emergency Cases

Appointment booking is not appropriate for emergencies. Patients with severe symptoms should be directed to emergency care.

Quick Reference Table

Question	Policy Answer
How early should patients arrive?	At least 15 minutes before the scheduled appointment.
Can cardiology appointments be booked?	Yes, depending on provider availability and referral rules.
Is mock availability real?	No. It is for demonstration only and not a real booking.

Recommended RAG Test Prompts

- How early should patients arrive?
- Can cardiology appointments be booked?
- Is mock availability real?
- What information is not available in this document?
- Summarize the main rules from this document.

Version: 1.0 | Data Type: Synthetic | Intended Use: Hackathon prototype and RAG demonstration.
